EduTrack App

EduTrack is a Kotlin-based Android app designed to optimize the academic lifecycle. By integrating real-time tracking with focus methodologies, we eliminate productivity barriers for 9.3 million Indonesian students.

Aligned with Global Goals:

4 QUALITY EDUCATION

Fostering academic independence through digital self-management tools for tertiary students

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

Expanding digital inclusion through accessible Android innovation

Supporting academic management for Indonesian students

Boosts focus and productivity through an integrated Pomodoro Timer

Builds consistent study habits through Streaks and Badges

Students struggle with deadlines, focus, and study consistency, impacting productivity and academic performance

Market Potential

9.3M

**Based on BPS 2025*

Targeting 1-3% of the 9.3M Indonesian Student Market in Year 1

Pomodoro Effect

Improved focus and time management during study sessions

Engagement

Increased motivation through streaks and achievement badges

Scrum

Development utilized the **Agile Scrum** framework over 14 weeks to ensure iterative, adaptive, and user-centric results, enabling fast adaptation to technical errors and design changes.

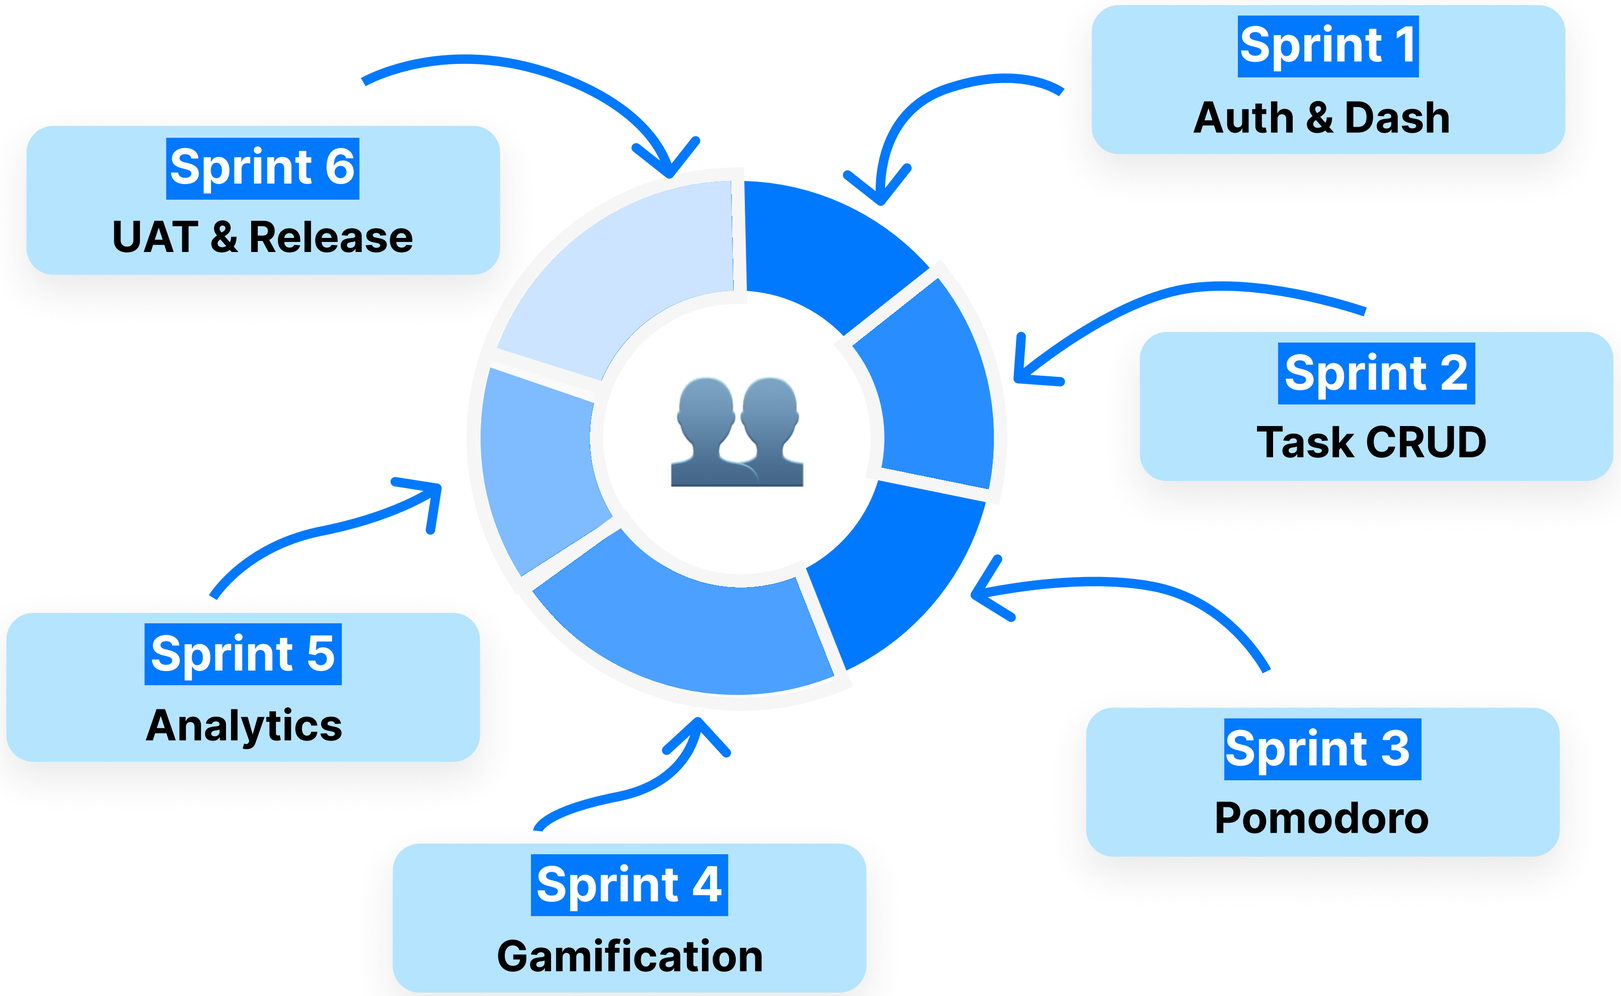
Scrum Execution Highlights

Sprints: 6 distinct development cycles

Roles: Product Owner, Scrum Master & QA

Outcome: Verified 23 Functional Requirements

Sprint Roadmap



User Journey

Authenticate

Sign up or log in securely to access a personalized academic workspace

Plan

Create tasks, set priorities (High/Low), and manage deadlines friendly

Focus

Stay focused with Pomodoro sessions linked directly to selected tasks

Reward

Complete tasks, build daily streaks, and unlock achievement badges to maintain motivation

Key Benefits

Better Deadline Management

Improved Focus & Productivity

Consistent Study Habits

Feature

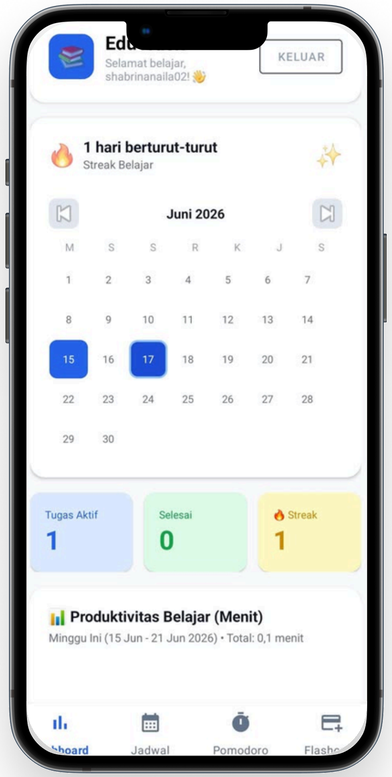
EduTrack is powered by robust, native Android modules engineered to streamline **academic routines** and **minimize procrastination loops**

Value Proposition

Eliminate Procrastination

Maximize Focus Sessions

Sustain Study Motivation

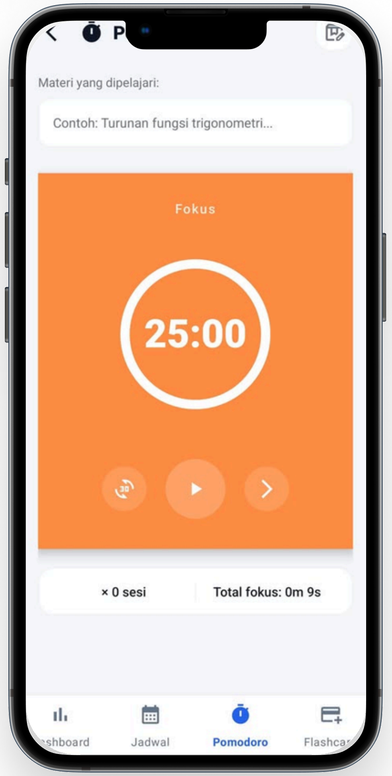


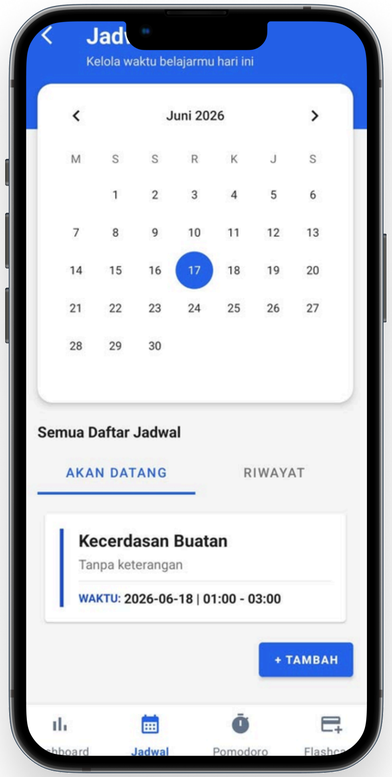
Task Plan & Habit Tracker

Integrates an academic calendar with integrated streak counters to help students manage daily assignments while maintaining consistent progress

Pomodoro

Implements dedicated Pomodoro intervals free from digital distractions to sustain cognitive endurance and train deep-work discipline





Schedule List

Provides a synchronized timeline of classes, exam dates, and academic milestones, ensuring no critical academic deadlines or events are overlooked

Flashcard

Utilizes spaced repetition decks designed to optimize memory retention, allowing students to master complex course materials more effectively

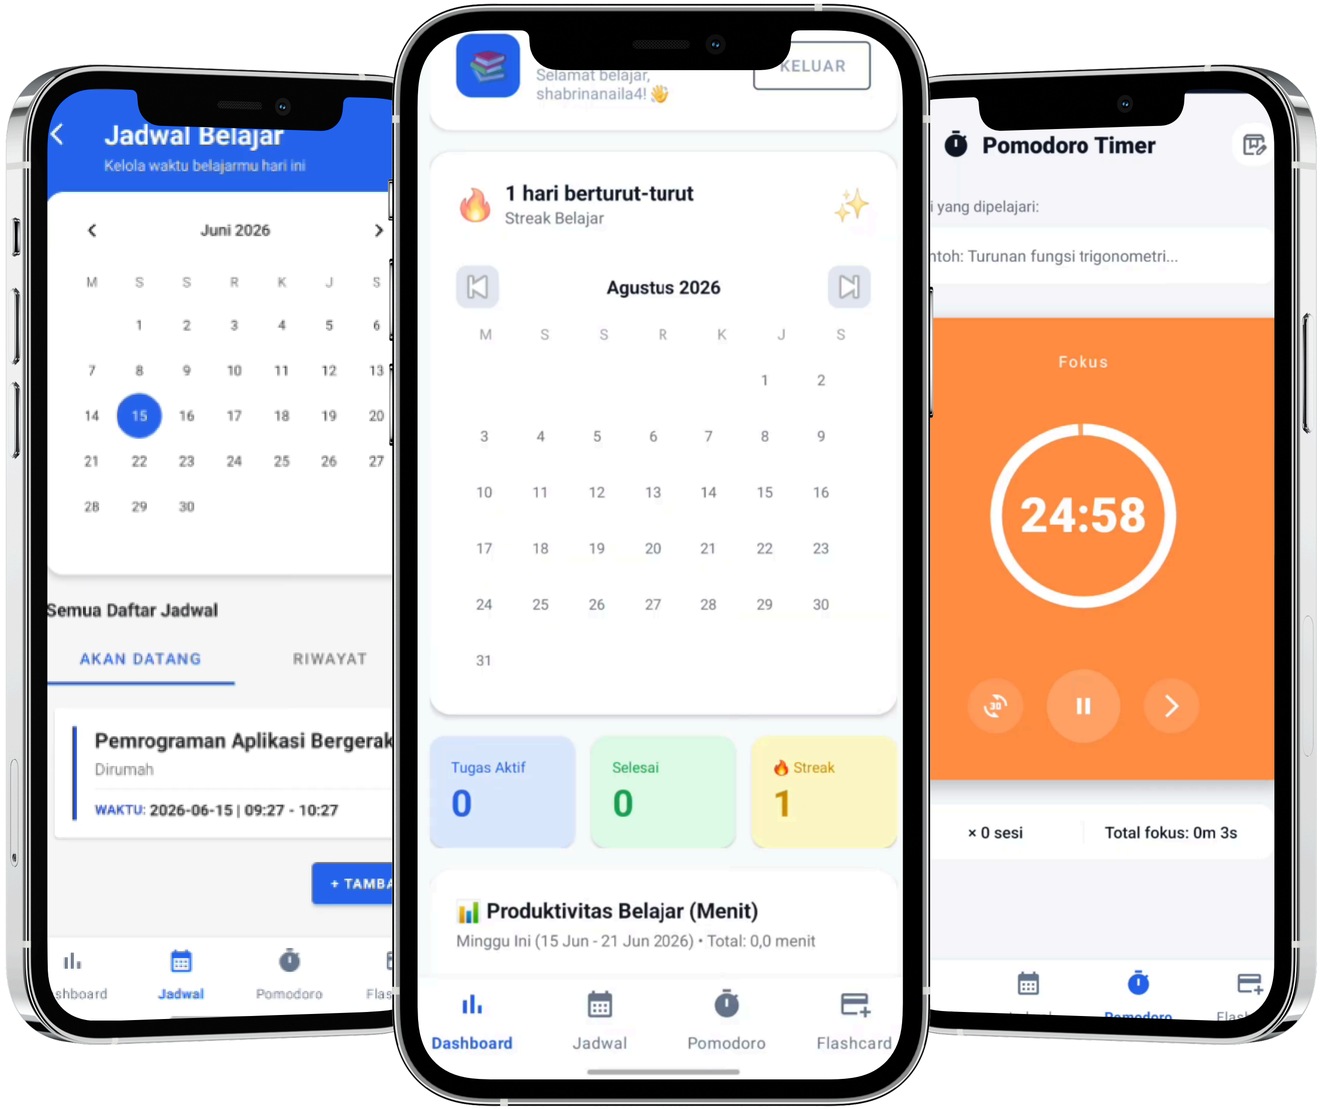
Proposing our solution...

EduTrack: Student Productivity & Task Management App

Scan to Try EduTrack



This application bridges the gap between effective time management and deep focus, utilizing structured gamified loops to help students unlock their full academic potential

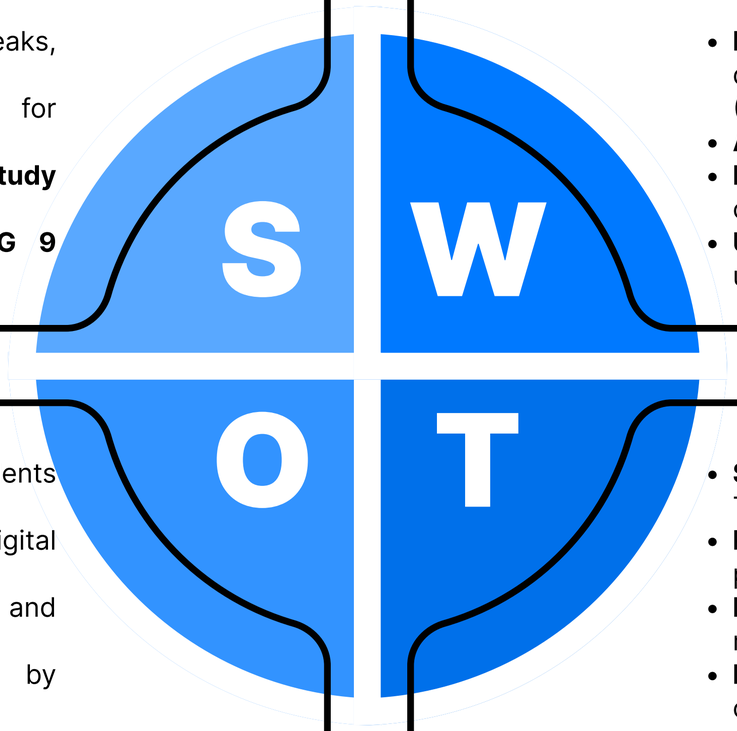
SWOT

STRENGTH

- **Integrated Features:** Tasks, Pomodoro, Streaks, Flashcard, and Dashboard in one app.
- **Student-Centered Design:** Built specifically for academic productivity needs
- **Gamification System:** Encourages **consistent study habits**
- **SDG Alignment:** Supports **SDG 4** and **SDG 9** objectives.

WEAKNESS

- **Manual Input:** Tasks must be entered manually, No direct integration with university academic systems (SIAKAD).
- **Android Only:** Not yet available for iOS users
- **Limited Validation:** Product testing is still conducted on a relatively small user group.
- **User Dependency:** Effectiveness relies on active usage



OPPORTUNITIES

- **Large Student Market:** Designed to support students in managing academic tasks and productivity
- **EdTech Growth:** Increasing adoption of digital learning tools
- **Future Integrations:** Potential for SIAKAD, LMS, and Calendar integration
- **Institutional Adoption:** Can be utilized by universities

THREAT

- **Strong Competitors:** Notion, Todoist, and Google Tasks
- **Retention Challenges:** Users may stop using productivity apps
- **Data Privacy Risks:** Requires secure user data management
- **Device Fragmentation:** Android compatibility challenges

Conclusion

EduTrack helps students organize tasks and manage deadlines effectively

Pomodoro-based focus sessions support productive study habits

Gamification encourages long-term motivation and learning consistency

Recommendation

Universities should integrate digital productivity tools to support student wellbeing and academic success
